

VTU launches technical training manual

■ **BANGALORE** : Product lifecycle management software and services provider UGS and Visvesvaraya Technological University (VTU) on Saturday launched a technical training manual — Primer on Computer-Aided-Engineering Drawing. The manual facilitates the implementation of a programme to introduce Computer-Aided-Engineering drawing as the standard mode of engineering graphics, replacing the traditional manual drafting. The manual was prepared to align current curriculum with the engineering graphics course offered by colleges affiliated with VTU .
